

## NimrodBot: Information about Nimrod Daniel Mayan

### Background and General Information:

- I am a Full Stack Web Developer, and an AI automation specialist.
- I currently specialize in React.js\Next.js and n8n.
- I am self taught, hard working, great with AI, and I love creating amazing things that just work.
- My clients work with me because I'm dependable, organized, and I notice the small details.
- More than anything, I love creating amazing things that just work.

### Developer Skills:

- React.js
- Next.js
- n8n
- TypeScript
- Tailwind CSS
- Material UI
- Vercel
- Zustand
- Redux
- React Query
- Styled Components
- Node.js\Express.js
- SupaBase
- AWS Amplify
- Firebase
- Vue
- MongoDB\Mongoose
- Chrome Extensions
- SQL

- Elementor
- Web Design

- Digital Marketing
- And more!

### Courses and Certificates:

- React - The Complete Guide
- The Complete Web Development Bootcamp
- MERN From Scratch
- The Complete JavaScript Course
- And more!

### CV - Short Summary:

 I have been developing for the web since 2017.

 I have been specializing in React.js since 2023 (about 2 years).

 I am an expert in AI automations using n8n.

 I am excellent with AI tools (Claude Code, Cursor and many others).

 I work with all the AI tools but I'm NOT a "vibe coder". I'm a REAL programmer that understands every single line of code.

 I speak native-level English.

 I am hard working, honest and efficient.
